DAILY RITUALS

Three new objects join “**Mattina**”, the breadbox designed by the BIG-GAME studio in 2020: a butter dish, a cake-stand with a dome and a paper-towel holder. A small galaxy of elements for conviviality and the kitchen, designed for breakfast or a coffee break, for those small daily ceremonies to share in the family, with friends and your loved ones.

DESIGNER

BIG-GAME is an interior design and product design studio, founded in 2004 by Augustin Scott de Martinville (France), Elric Petit (Belgium) and Grégoire Jeanmonod (Switzerland). The head office is in Lausanne, Switzerland.

“MATTINA is a family of everyday items that are both functional in the kitchen and fit well on the breakfast table. We put a touch of playful functionality in each object: the clever portable breadbox with a lid that becomes a cutting board, the porcelain butter dish with colored metal lid, the paper towel holder with a wooden handle that locks the paper roll, and the cake stand with a transparent cover to keep cakes and pies fresh while showcasing them beautifully. MATTINA is about making every day more enjoyable, celebrating daily rituals with simplicity, while upholding the lasting and renowned quality of Alessi products.” ◆ BIG-GAME

STAND WITH LID
ON STAGE

Dedicated to baking enthusiasts who not only love to make things but also to present their creations as best as possible, the cake-stand designed by the BIG-GAME studio has an understated line that includes, like the other elements in the Mattina collection, great care to the functional aspects.

DEDICATED TO

Lovers of breakfast, whether sweet or savoury: a fundamental meal to treat oneself to or to share convivially with those you love.

COMPONENTS

It consists of a white porcelain plate with an opaque enamelled porcelain foot and a transparent thermoplastic lid with a bamboo knob.

Strictly confidential © Alessi

DESIGN NOTES

Understated versatility
Thanks to the minimalist design, the Mattina cake-stand adapts to every type of table and interior decoration.

For every occasion
Whether it's a simple family lunch, a dinner with friends or a birthday party, we can make the table more special by offering cakes, biscuits, fruit or cheese on the Mattina cake-stand.

SUSTAINABILITY AND SAFETY

Porcelain is a sustainable material with a low environmental impact, thanks to its components, the reduced absorption of water and its long life. The rapid regrowth of bamboo plants makes this material literally renewable; it is also sustainable because its cultivation does not require the use of chemical treatments, weedkillers or pesticides.

USE AND MAINTENANCE

[Versatile] Ideal not only to serve cakes or desserts, but also hors d'oeuvres, cheese or fruit at the end of the meal.

[Practical] The transparent lid allows seeing inside; thanks to the slightly contoured edge of the plate, the lid can easily be placed correctly.

[Easy to clean] Washable with a soft sponge and non-abrasive detergent. Dry thoroughly.

BUTTER DISH

A CLASSIC ON THE TABLE

A timeless accessory for the table and the kitchen to keep butter longer and at the right consistency. Ideal for those who like to enjoy their breakfast, whether sweet or savoury, to the full, accompanying this fundamental meal of the day with a crisp slice of buttered bread.

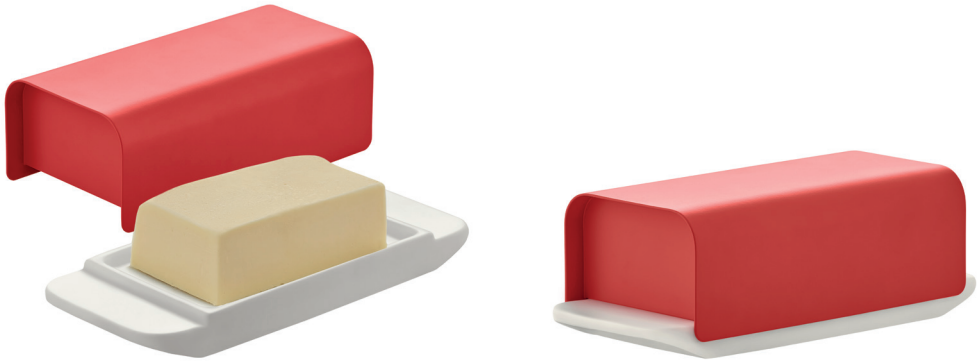
DEDICATED TO

Lovers of breakfast, whether sweet or savoury: a fundamental meal to treat oneself to or to share convivially with those you love.

Strictly confidential © Alessi

COMPONENTS

It is a small rectangular porcelain dish with a metal lid, coloured with epoxidic resin.



DESIGN NOTES

Easy to mix and match
Thanks to its linear design, the colours of the lid and the delicate finish of the porcelain dish, this butter dish can dialogue easily with the other accessories on your table.

SUSTAINABILITY AND SAFETY

Porcelain is a sustainable material with a low environmental impact thanks to its components, the reduced absorption of water and its long life. Steel is one of the longest lasting and resistant materials, it is eco-sustainable throughout its whole life cycle and completely recyclable.

USE AND MAINTENANCE

[Versatile] Ideal to serve and keep butter, margarine or spreadable cheeses.

[Practical] Its compact shape and the balanced dimensions allow putting it easily on a shelf or in the fridge, always ready for use. Small grooves on the dish guarantee the stability of the lid and allow moving it easily.

[Easy to clean] The porcelain dish can be washed in a dishwasher. The lid can be washed with a sponge and a non-abrasive detergent.

KITCHEN ROLL HOLDER

A SMALL, GREAT ALLY IN THE KITCHEN

An accessory present in every kitchen, the paper-towel holder has also started to appear frequently on our tables. BIG-GAME offers a variation with a minimalist and colourful design that includes a series of details designed to enhance its functionality.

DEDICATED TO

Lovers of breakfast, whether sweet or savoury: a fundamental meal to treat oneself to or to share convivially with those you love.

COMPONENTS

It consists of a base and a central support made from coloured steel and a bamboo knob to close it.

Strictly confidential © Alessi

DESIGN NOTES

Colourful functionality
Colourful and taking up little space, it is ideal to have paper towels quickly within reach.

A valid ally
During lunches or daily afternoon snacks of the children, Mattina offers an excellent alternative to paper serviettes, often lighter and less resistant than paper towels.

Elegant and minimalist
It is an accessory that goes perfectly with any type of interior decoration and it can also be used directly on the table.

SUSTAINABILITY AND SAFETY

Steel is one of the longest lasting and most resistant materials, it is eco-sustainable throughout its whole life cycle and is completely recyclable. The rapid regrowth of bamboo plants makes this material literally renewable; it is also sustainable because its cultivation does not require the use of chemical treatments, weedkillers or pesticides. The size of its base and the presence of a weight inside ensure maximum stability, further guaranteed by non-slip feet that also protect the surface it is on.

USE AND MAINTENANCE

[Easy to use] Fit the roll on to the central element and tighten the bamboo knob at the top.

[Practical] The bamboo knob offers a comfortable grip which allows moving the paper towel holder easily. It can be used with rolls of different sizes, including those distributed on the US market.

[Easy to clean] Clean using a soft damp cloth and dry thoroughly.
