## **Cross Sideboard** by Matthew Hilton

The simple lines of the Cross sideboard by Matthew Hilton are distinctively modern. The functional design of the solid base is sturdy and handsome while its body is made of veneered oak or walnut.

The sideboard is configured with three drawers on the left side and two doors on the right. The top drawer is slightly slimmer than the ones below, making it ideal for cutlery. All the rectangular handles are made of solid wood. This is a relatively high sideboard that appears to almost glide on its distinctively angled legs. It is a robust piece, ideal for dining and living areas.
