Press Large Vase

Frosted Pressed Glass

The Press collection celebrates the intersection of industrial precision and decorative art. Each piece is crafted from fat, chunky coils of glass, industrially pressed into iron moulds under extreme pressure. This process results in heavyweight glass objects defined by a signature rib-like decoration that acts as an optical lens, precisely refracting and diffusing light across the surface. The Press Frosted collection has a sand blasted finish which transforms the clear glass to a translucent, soft matte texture.
