Melt Small Portable Light

Gold

The Melt Small Portable Light is a portable light with an integrated LED module. Designed for both indoor and outdoor use, this rechargeable lamp offers up to 10 hours of light with a universal USB-C magnetic charger. The Melt collection features an avant-garde design that undergoes a mesmerising optical transformation, shifting from a hyper-reflective mirror finish when off to a translucent, hot-blown glass effect with a rich depth when illuminated. Made in Germany using high-tech manufacturing, this striking series pairs cutting-edge engineering with organic form to manipulate light and reflection, creating a dramatic focal point.
