Their soft upholstered shape is balanced with piping along the contour, to create a distinct harmony of form. Studied to the smallest detail, like a custom suit, the Sartor chairs can be tailored to fit a specific occasion. Between their simple design, choice of fabrics and legs, these chairs can truly be shaped to fit any project. Sartor chairs were dimensioned and built to withstand contract and domestic use. In this way they can be the most versatile, comfortable and fitting chair.
