English text

The name 'Logs' stems from the designer's source of inspiration, found in the calmness of the Nordic birch forests. Embodying the repetition of numerous trees, this aesthetically versatile piece echoes the identical shape of the mirrors. Simultaneously static yet softly organic.

The individual mirrors can be placed at different heights to obtain a wavy effect, allowing you to construct a personalised expression. From artistic creations to balanced appearances. Choose between sets of three and five mirror slats or combine them to enhance the decorative effect.

The sets come with a fixed composition of colours that can be arranged in the order you like.

Designed by VOSDING Industrial Design

VOSDING Industrial Design, located in Cologne, was established by Peter Otto Vosding in 2017. Recognised as a German Design Award Newcomer Finalist, the studio specialises in furniture and lighting. Their design philosophy emphasises a seamless fusion of function, elegance and value, anchored in a logical approach.

Danish text

Logs er et visuelt alsidigt spejl, der kombinerer stringente former med et organisk udtryk. Navnet "Logs" stammer fra designerens inspiration, som han fandt i de rolige nordiske birkeskove. Denne inspiration manifesteres i de ensformede, justerbare spejle, der symboliserer gentagelsen af mange forskellige, men ensartede træstammer i skoven.

De individuelle spejle kan placeres i forskellige højder for at skabe en bølgende effekt og give dig mulighed for at skabe et personligt design. Lige fra kunstneriske kreationer til harmoniske udtryk. Vælg mellem sæt af tre og fem spejle eller kombinér dem for at forstærke den dekorative effekt.

Sættene indeholder en fast farvesammensætning, som kan arrangeres i den rækkefølge, du foretrækker.

Designet af VOSDING Industrial Design

VOSDING Industrial Design blev grundlagt i 2017 af Peter Otto Vosding. Det Köln-baseret designstudie specialiserer sig i møbler og belysning og samarbejder med en række internationale brands. Deres designfilosofi vægter en harmonisk forening af funktion, elegance og værdiskabelse, forankret i en logisk designtilgang.
