DESCRIPTION

Somnium Stand Alone delivers autonomous and minimalist lighting with advanced optical technology that ensures $UGR < 16$, eliminating glare and enhancing visual comfort. By fusing the lens and antiglare, the louvre is no longer just an accessory but an essential structural element for optimal light control.

This innovation allows for a perfectly balanced light distribution, with a precise direct emission and an indirect emission that enhances the surrounding space. With an efficiency of up to 165 lm/W, Somnium Stand Alone combines high performance with sustainability, reducing weight and material use for intelligent and responsible lighting.

FEATURES

- Product Code: **TT91000APP**
