TZ75 Coffee Table

WERNER BLASER

The TZ75 coffee table, designed by Swiss architect and designer Werner Blaser, is defined by an elegant glass top resting on a triangular curved base. The design reflects Blaser's ability to craft a striking yet refined aesthetic using durable materials. Its symmetrical frame lends the table a sculptural presence, while the transparent glass creates a light and spacious impression. Known for his minimalist designs that unite form and function, Blaser's vision is fully expressed in the TZ75. With its clear lines and thoughtful use of materials, the coffee table embodies timeless elegance and has effortlessly stood the test of time.
