

LEAF

arper

Leaf

Subtle allusions that capture the pleasing irregularity of nature create comfortable and iconic surfaces and silhouettes. The observation of nature is revealed in the shape of the table tops — similar to the shape of a pebble polished by the water — and in the particularity of the structures of chairs and tables, displaying an irregular design reminding of the branches of a tree or a leaf veins. Leaf is a manifesto: an image simultaneously nostalgic and forward thinking. Its simplicity of form and ease of application encourage creative inclusion in diverse environments, both inside and outside. Chair, stackable chair, lounge, chaise longue and tables. Chairs are fabricated in chrome-coated or matte powder-coated steel in white, green or moka. A detachable polyurethane cushion is available for indoor and outdoor use. Perfect for relaxing at work or at home, the Leaf table fulfills the needs of those who favor an essential design and a light presence in the space and is the ideal companion to the Leaf chair. Tables are available in two heights (50 and 74 cm) in three top surfaces: round (diameter 79 cm and 100 cm), square (79 x 79 cm) or triangular with rounded edges. Bases are available with 3 or 4 legs. All are fabricated in white, moka or green painted steel. A water-repellent HPL top is available in the gray only for all base options.

Designer

Lievore Altherr Molina.

Lievore Altherr Molina was founded by Alberto Lievore, Jeannette Altherr and Manel Molina in 1990. Their humanist design approach is informed by the fundamental desire for pure, beautiful forms derived from the constraints of function, technology and context. Distinguished by a multi-disciplinary method that engages furniture, interior, product, and package design, their work has been globally exhibited and acknowledged. They are the recipients the prestigious National Design Award (1999) in Spain where they practice and teach extensively.
