OBlique

WWW.CPHLIGHTING.DK

Design : Tom Stepp - 1979

Oblique is a timeless and elegant lighting collection with exceptional details, finishing, and functionality. The asymmetrical design of the lamp shade ensures a glare free light, making Oblique ideal as a reading lamp. The on/off switch, elegantly positioned on the tilt- and 360°-turnable shade, makes Oblique flexible and easy to adjust. Oblique is suitable for both private and public applications.
