design: eric solè - 2005

La linea plastica e sinuosa del corpo lampada avvolge e maschera al suo interno la sorgente luminosa alogena o a ioduri metallici, emettendo un morbido fascio di luce verso l'alto. Corpo in alluminio pressofuso verniciato bianco o silver, o cromato lucido o opaco. Emissione di luce indiretta.

Colori: bianco, silver, cromo lucido o cromo opaco.

The sinuous plastic line of the lamp unit envelops and masks the light source inside it, emitting a soft beam of light upwards. Body lamp in painted white, silver die-cast aluminium or chromed opaque or polished. Indirect light emission.

Colours: white, silver die-cast aluminium, chromed opaque or polished.

La ligne plastique et sinueuse du corps de la lampe enveloppe et masque la source halogène ou à iodures métalliques, en dégageant un doux faisceau de lumière vers le haut. Corps en aluminium moulé verni blanc, silver, chromé poli ou opaque. Emission indirecte.

Couleurs: blanc, silver, chromé poli ou opaque.

Die plastische und gewundene Linie des Leuchtenkörpers hüllt die Lichtquelle ein und lässt, ein weiches Lichtbündel in die Höhe strömen. Leuchtenkörper aus lackiertem Aluminiumdruckguss oder aus matt-oder glänzendem Chrom. Indirekte Lichtverteilung.

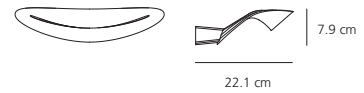

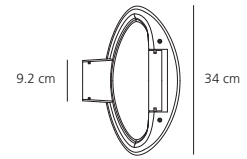

Farben: Weiß, Silber oder matt-oder glänzendes Chrom.

La línea plástica y sinuosa del cuerpo lámpara envuelve y enmascara en su interior la fuente luminosa halógena o de yoduros metálicos, proyectando un mórvido haz de luz hacia lo alto. Cuerpo en aluminio presofuso pintado blanco, silver o cromado mate o pulido. Emisión de luz indirecta.

Colores: blanco, silver o cromado mate o pulido.
